SERENITY

Serenity is much more than just a fragrance; it is an invitation to tranquility and inner peace. Specifically designed to soothe the mind and reduce anxiety, this revolutionary perfume uses a synergy of essential oils carefully selected for their calming and relaxing properties.

Composition

Top Notes:

Bergamot: This fresh and light opening note is known for its balancing properties, providing an initial breath of calm.

Lavender: A symbol of relaxation, lavender immediately reduces stress, creating a sense of well-being from the very first moment.

Heart Notes:

Chamomile: Soft and floral, chamomile envelops the mind in a soothing embrace, dissipating tension.

Ylang-Ylang: Exotic and floral, ylang-ylang promotes deep relaxation and significantly reduces anxiety.

Neroli: With its delicate and rejuvenating aroma, neroli infuses the composition with pure tranquility and lasting serenity.

Serenity is crafted with a base of pure alcohol, allowing the essential oils to diffuse delicately and create a harmonious olfactory experience. Each application is a sensory caress, designed to transport you to a state of inner peace and relaxation.
